1) Attach the mount to your desk or table by
turning the handle clockwise. Make sure the
clamp is tight, but be careful not to overtighten it.
The maximum clearance for the clamp is 80 mm.

3) To complete the installation, simply slide the tv plate
with your display attached into the Mount.

4) If too loose or too tight.

2) Attach your LCD monitor
to the mount using the
hardware provided.

Displays with flat backs.

Displays with curved
or recessed backs.
